SHARETHER's 2025 IMPACT REPORT

Executive Summary

Sharether is a growing digital learning platform created to make studying less chaotic and more meaningful for tertiary students in Africa.

What began as a simple place to access past questions and academic resources for Colleges of Education is steadily evolving into a structured, collaborative learning ecosystem where students can practice, track progress, and engage with peers and lecturers.

By replacing scattered Telegram groups and random file sharing with a focused learning platform, Sharether is helping students move beyond exam cramming toward real understanding. Our vision is to build a smart learning home for tertiary education in Africa, starting with teacher training colleges and scaling from there.

2025 at a Glance

- **205,820** total users
- **10,254** monthly active users
- **1.16M+** pages viewed
- **3.8M+** file downloads
- **1.24 TB** of educational content delivered
- **5×** growth year-on-year

Growth & Usage

In 2025, Sharether experienced significant growth driven primarily by organic usage and word-of-mouth within Colleges of Education. Platform usage peaked during academic periods, confirming strong alignment with student learning needs. Engagement metrics showed sustained demand for academic resources and structured learning content.

What We Learned

- Students want **structure**, not just files
- Trust grows when platforms are **consistent and transparent**
- Community-driven learning beats isolated studying

These insights are shaping how Sharether is evolving.

Building Sustainably

Sharether operated fully bootstrapped throughout 2025, supported by internal contributions and community donations. This lean approach allowed the platform to focus on stability, growth, and user value while laying the groundwork for future sustainability models.

Looking Ahead: 2026 Goals

- Expand and strengthen the user base
- Launch the full interactive learning platform and Mobile App
- Increase academic resource partnerships with institutions
- Introduce a sustainable subscription model
- Grow awareness through campus engagement and digital outreach

---

A Note to Our Users

Sharether exists because students use it, trust it, and share it. This report is part of our commitment to transparency and growth. As we move forward, we invite students, educators, and partners to grow with us.

Best Regards,

Sharether Development Team.
